Instructions to Bidders

RFX-2026-0142 - FY27 IT Hardware Refresh - Enduser Compute, Datacentre & Network

Issued 04 September 2026 | Responses due 18 September 2026, 17:00 IST

This enquiry comprises five documents: the Scope of Work, the Line Items sheet, the Vendor Questionnaire, the Commercial Terms, and these instructions. Read all five before quoting.

1. Responses are due by 18 September 2026 at 17:00 IST, by email to ananya.kulkarni@kaveriretail.in.

Clarification questions close 11 September 2026.

2. Return the Line Items sheet and the Questionnaire as separate files. Quotations in your own format will be accepted, but the more your format differs from ours, the longer evaluation takes and the more likely we are to come back to you with clarifications.

3. Quote in INR, ex-GST, FOR destination, all three sites. State the GST rate and HSN code against every line.

4. **Do not alter the unit of measure.** Line 13 is one kit of 2x 16GB DIMMs. Line 17 is one pack of 5 cartridges. Line 20 is one box of 10 transceivers. Line 22 is one box of 50 patch cords. A price per piece against a line specified per box will be normalised, and you will be asked to confirm, which costs us both time.

5. Partial bids are permitted. Mark any line you cannot supply as **NQ**. Do not leave it blank. A blank line and a declined line are treated differently: the first makes us chase you, the second does not.

6. Equivalentents are permitted provided the offered make and model is stated in the 'Make / model offered' column and meets or exceeds the key spec. An unstated substitution will be treated as non-compliant.

7. Where a line description states a warranty term, quote inclusive of that term. Do not quote a shorter term with a separate uplift line: it makes your bid look cheaper than it is and it will be adjusted onto a common basis before comparison.

8. Discounts applied only at total level cannot be attributed to individual lines and therefore cannot be used where we award by line. If you want a discount to count on a partial award, apply it to the line rates.

9. Any discount conditional on an approval you do not yet hold, an order date, or another bidder's price must be stated as conditional. It will be recorded and shown to our approver, but it will not be used in the ranked comparison.

10. **All mandatory questionnaire questions must be answered and evidenced. Failure or non-response on any mandatory question disqualifies the bid regardless of price.** Where an answer and its attachment disagree, the attachment governs. Check the validity dates on your certificates before you attach them.

11. Revised quotations are accepted until the due date. Mark them clearly as a revision, state the quotation number they supersede, and identify which lines changed. An unmarked revision may be evaluated alongside your original rather than instead of it.

12. Do not price by reference to a previous purchase order, a percentage uplift on last year, or a promise to match another bidder. We cannot evaluate a price we have to derive, and a price contingent on a competitor's bid cannot be ranked or awarded.
